

NRAN854 : Advanced Principles of Anesthesia I

The first in a series of four courses designed to expand upon the knowledge obtained during the Phase I courses. Course work builds on theories and principles taught in the Phase I curriculum and prior clinical experience. Emphasis is placed on the integration of research findings into evidence based clinical practice. Students will prepare a written and oral presentation on a selected clinical topic utilizing current research. Topics include orthopedic, otolaryngology, ophthalmology, urology, gastrointestinal, and ambulatory surgery. Patient cultural variations and the impact upon the anesthetic plan and implementation will be discussed.
