

NRAN86o : Advanced Principles of Anesthesia III

The third in a series of four courses designed to expand upon the knowledge obtained during the Phase I courses. Course work builds on theories and principles taught in the Phase I curriculum and prior clinical experience. Emphasis is placed on the integration of research findings into evidence based clinical practice. Students will prepare a written and oral presentation on a selected clinical topic utilizing current research. Topics include advanced airway techniques, trauma, critical care, and obstetric anesthesia and analgesia.
